THE great interest manifested by the people of the whole country in the discussion of the silver question now going on, and also the great attention paid by the leading newspapers of the East to the importation of the Mexican lead ores, with the necessity of considerable attention being paid to the production of silver, is likely to result in drawing more general attention to the West and Southwest, and consequently benefit us outside of the mere enhancing of the price of silver. The vast body of people east of the Missouri river have, almost entirely, given themselves up to the pursuit of agriculture, in its various branches, and manufactures, and have only a vague idea that somewhere out near the setting sun there is a wild, rough country, where equally wild, rough men gain a precarious livelihood by digging for the precious metals. They have no conception of the magnitude and importance of the mining industry, and when some of them do cautiously invest a few thousand dollars in a mine, then send out a dry goods clerk for superintendent, and the enterprise is consequently a failure, the prejudice against mining is increased and more than ever looked upon as only being another and extra hazardous form of gambling. But the discussion now going on will undoubtedly set large numbers of people thinking as to the source of supply from whence is drawn the metals that constitute the medium of exchange of our country and cause them to inquire and investigate. Such investigation and inquiry can but result beneficially to the mining industry, consequently greater prosperity to the metal-bearing regions of the West, and by reason of this discussion our section will be doubly benefited.

THE Phoenix Gazette says that it has it on good authority that Governor Wolfley intends to relieve Clark Churchill. Wonder if the Governor has finally found out that some of his appointees are extremely unpopular in the Republican party, and that if he wants to save himself he will have to make a change? Mr. Churchill is not the only one he should let go. He should appoint some competent man for Commissioner of Immigration. Mr. Black is a very pleasant gentleman, but he is not fitted to perform the duties of the office which he holds.

THE Premier of Italy, Signor Crispi, has given notice to the Pope that he had perfect religious liberty, but will not be allowed to encroach on the sphere of national rights. The world is being gradually freed from the thralldom of priestly rule.

Notice to the Public.

Realizing the great benefits that would accrue to our section of Arizona if silver were restored to its proper place in the monetary system of our country, and recognizing the fact that this can be accomplished only by concerted action on the part of the people of the whole country, the undersigned respectfully request the citizens of Cochise county to attend a meeting at the county court house, in this city, Friday, October 25th, at 7 p.m. for the purpose of electing delegates to the silver convention, which will meet in St. Louis November 26, 1889.

A Dig in the Ribs

If on the right side and lower part of the diaphragm, though playfully meant and delivered, is calculated to evoke profanity from a chappy whose liver is out of order. When that region is sore and congested, pokes seem fiendish. Look at a man's countenance ere you prod him under the ribs. If his skin and eyeballs have a yellow tinge, you may infer also that his tongue is furred, his breath apt to be sour, that he has pains not only beneath his ribs, but also under the right shoulderblade. Also, that his bowels are irregular and his digestion impaired. Instead of making a jocose demonstration on his ribs, recommend him to take, and steadily persist in taking, Hostetter's Stomach Bitters, the finest anti-bilious and alterative medicine extant. Incomparable is it, also, for dyspepsia, rheumatism, nervousness, kidney trouble, and fever and ague.

The hearing of the contest case is set for November.
